

# EQUAL PAY DAY

April 17, 2018

## LEARN THE TRUTH ABOUT THE WAGE GAP

On average, women in Indiana make 75 cents to every one dollar that men make and based on the current rate of progress, it is projected that Indiana will not close the wage gap until 2086. In 2018, YWCA Northeast Indiana will host a three part series to explain why the wage gap exists and the differences between the White, African American and Latina wage gaps. We hope you will join us for our first event, on April 17th. Please save the dates and watch for more details later in the year.
