LEARN THE TRUTH ABOUT THE WAGE GAP

On average, women in Indiana make 75 cents to every one dollar that men make and based on the current rate of progress, it is projected that Indiana will not close the wage gap until 2086. In 2018, YWCA Northeast Indiana is hosting a three part series to explain why the wage gap exists and the differences between the White, African American and Latina wage gaps. August 7, 2018, is the day when African American women make as much money as white men did in 2017.
